

## SKIN PEELS

### WHAT IS IT?

Peels are a treatment which helps improve and refine the texture of the skin, smoothing away fine lines, wrinkles and blemishes. They can be applied to the face neck hands, décolletage and body.

### WHAT DOES IT INVOLVE?

Skin peels involve the careful application of a solution containing alpha hydroxyl acids (aha's) a group of naturally occurring acids incorporating glycolic acids. They work by lifting the top layers of dead skin cells and skin debris and can also help acne sufferers. At Revive we use light (glycolic) to medium (TCA) medical grade peels only.

### WHAT RESULTS CAN I EXPECT?

Skin will be brighter tighter and fresher revealing a more youthful smooth complexion. Fine lines wrinkles and blemishes will be reduced.

### HOW MANY TREATMENTS WILL I NEED?

We recommend a course of 4-8 peels once a week or fortnightly to achieve the best results after consultation each treatment takes around 15 minutes.

## MESOTHERAPY

### WHAT IS IT?

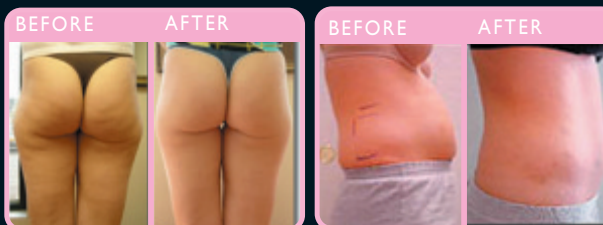

Mesotherapy is a medical speciality consisting of a series of injections of vitamins, herbs, homeopathic remedies and pharmaceuticals in specific formulations. Its cosmetic usages include cellulite reduction, weight loss and facial rejuvenation.

### WHAT DOES IT INVOLVE?

Originally created to improve circulation mesotherapy works to replenish hydration in the skin and rupture fat cells. The preparations injected into the Mesoderm (or surface layer of the skin) of the problem area being treated, with a fine needle or Mesogun. Treatment lasts around 20-30mins.

### WHAT RESULTS CAN I EXPECT?

Areas affected by cellulite will be smoother and firmer with no bandages required. Mesotherapy can help target stubborn areas of fat that exercise and diet has not managed to treat. As an anti ageing treatment Mesotherapy can improve hydration, tone and elasticity of the skin.

### HOW MANY TREATMENTS WILL I NEED?

Treatments are carried out over a number of weeks depending on the extent of the problem. Once optimal results are achieved a maintenance treatment every six weeks is recommended.

## TREATMENT FOR LINES & WRINKLES

### WHAT IS IT?

Muscle relaxant injections e.g. Botox and Vistabel

### WHAT DOES IT INVOLVE?

The muscle relaxant is injected with a very fine needle and works by blocking the signal from the nerve to specific facial muscles. It is used to treat frown lines between the eyebrows, horizontal forehead lines and crows feet.

### WHAT RESULTS CAN I EXPECT?

After the injection the muscles will relax and the skin will smooth itself out over a period of 5-14 days. The result is a smoother, softer more relaxed and pleasant youthful appearance.

### HOW MANY TREATMENTS WILL I NEED?

The effect generally lasts 3-5 months and can be repeated when needed. Most clients require less frequent treatments over time.

## DERMAL FILLERS

### WHAT IS IT?

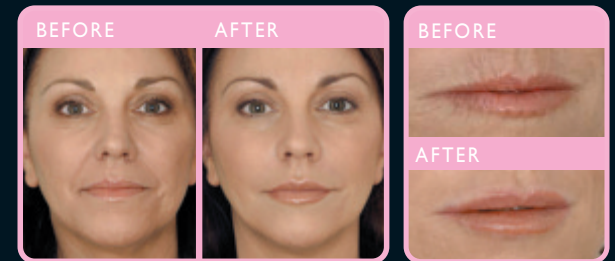

The most commonly used dermal fillers are hyaluronic based gel Hydrafill, Restylane, Perlane and Teosyal to name but a few. Dermal fillers are used to soften and contour lines folds and wrinkles and to define the lips and increase fullness.

### WHAT DOES IT INVOLVE?

A mild anaesthetic cream is applied to the area being treated and the gel is injected into the skin beneath the wrinkle or around / into the lips with a fine needle. Treatment takes around 20-40 minutes depending on the number of lines and wrinkles being treated. Free nerve block pain relief is offered on lip treatments.

### WHAT RESULTS CAN I EXPECT?

Dermal fillers are an ideal solution for clients wanting to soften deep lines from the mouth to nose area, lip lines, enhance thin lips, create a more defined lip border and lift the corners of the mouth.

### HOW MANY TREATMENTS WILL I NEED?

The number of treatments is dependant upon your skin condition however you will see results from one treatment. Dermal fillers usually last around 6-9months depending on the product used.
